DETAILED ACTION

Response to Amendment

1. Applicant's amendment filed on September 09, 2007 has been considered and entered in full.
2. Applicant's arguments and amendments with respect to claims have been considered and are persuasive; therefore all the prior art rejections on the respective claims have been withdrawn.

Allowable Subject Matter

Reasons of Allowance:

3. Claims 1-44 are allowed.

The following is an examiner's statement of reasons of allowance:

Both the instant invention and the closest prior art Schildkraut et al., U.S. Patent 6,252,976, are directed to image enhancement with respect to face detection. The instant invention further recites the limitation "identifying a first group of pixels that correspond to a face within a digital image including comparing one or more detected luminance variations between sub-groups within said first groups of pixels with one or more expected luminance variations of digital facial images" in claims 1 and 18, which is not taught by the prior art of record. Therefore claims 1 and 18 are allowed. All other claims depending on claims 1 and 18 are allowable at least by dependency on claims 1 and 18.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
